MOO.SHINE

Un segno che splende sospeso

Dall' unione di due profili retti e curvi nasce Moo.shine. Sinuosa e leggera. E' la luce che definisce la sua forma che nell' ambiente sembra smaterializzare la materia di cui è composta. Moo.shine non è una lampada con dentro la luce, bensì è luce con attorno una lampada. Un segno che splende sospeso.

From the union of two straight and curved profiles Moo.shine comes to life. Sinuous and light. It's the light that defines its shape in the environment .It seems to dematerialize the material of which it is composed. Moo.shine is not a lamp with light inside, but, light with lamp around. A suspended sign that shines.
